Lingnan University (2006). Annual report on research activities 2005-2006. Hong Kong: Lingnan University. Retrieved from http://commons.ln.edu.hk/research_annual_report/5

This Book is brought to you for free and open access by the Office of Research Support at Digital Commons @ Lingnan University. It has been accepted for inclusion in Annual Report on Research Activities to Research Grants Council by an authorized administrator of Digital Commons @ Lingnan University.

Report 1: Overview

■ Preamble

As a liberal arts university, Lingnan is fully committed to quality of teaching, but we also consider that research is equally important for academic staff. This is in line with Lord Sutherland's Report that "all university level teachers are expected to be engaged in research and scholarship" (p.3).

The University's performance in securing CERG research funding in the 2005-06 round of applications continued to be gratifying. Out of the 14 project proposals submitted, 5 were selected with a total of \$2.347 million awarded. The success rate was 35.7% in terms of the number of applications submitted, but in terms of the "Humanities, Social Sciences and Business Studies" sub-group, Lingnan's success rate was 41.7% (ranked second), compared to an overall sub-group success rate of 30.8% for all institutions. We are happy to note that Lingnan's performance in securing CERGs has been encouraging: our sub-group success rate of 34.9% over the past four years places us second among the eight UGC-funded institutions in Hong Kong.

■ Institutional Policy on Research

Striking an appropriate balance between teaching and research is central to the University's approach to the development of a research culture. While teaching is our primary mission, research is seen as a vital element of scholarly activity which supports and enriches teaching.

The University's research policy is designed to optimize the use of research funds through focused development, quality enhancement and collaborative endeavour. Focused development is achieved as a result of identification of areas of excellence and the recruitment of faculty to build up strength in these areas. Quality enhancement is achieved through faculty appointment and continuing improvement of its existing staff profile. Collaborative endeavour is fostered by establishing research centres that provide both research support and coordination.

■ Focused Development

Lingnan is fully aware of the need to focus its research efforts on its areas of strength. At Lingnan, research and teaching are seen as interactive and symbiotic. The synergy between teaching and research is particularly relevant to Lingnan, as both include a strong empirical dimension.

The theoretical and practical value of research conducted at Lingnan is well exemplified by our first RGC-funded public policy research awarded in June 2006, entitled “Fair Competition under Laissez-Faireism: Policy Options for Hong Kong”. Through a systematic review of current competition policy framework in Hong Kong, the project will assess if there is a need for Hong Kong to establish a general competition law.

In addition to this recent project, a total of eight priority research areas have been generally identified for focused support at Lingnan. These are: Cultural Research and Development, Public Humanities, Modern Literature in Chinese, Aesthetics and Theories of the Arts, Taxation, Managerial and Organisational Issues in Chinese Mainland, Social Gerontology and Public Policy. All these research areas are in line with our liberal arts mission, and have been selected based on existing strengths and proven track records, as well as their connectivity to undergraduate teaching.

■ Quality Enhancement

To ensure that faculty members will be given adequate opportunities to engage in research and development activities as well as a concentrated period for writing, a study leave scheme that awards a maximum time-off period from 6-12 months has been put in place. This will allow academic staff, through re-arrangements of teaching schedule and utilization of the summer vacation, to be released from teaching and administrative duties to concentrate on research/study/writing full time. Three academic members from three departments were released from teaching in 2005-06, each for a six-month period.

In addition to their regular participation in academic seminars organized by local tertiary institutions, staff are administratively encouraged and financially

supported by the University to attend scholarly activities overseas to keep abreast of the latest developments in their respective fields of expertise. During the year, a sum of HK\$0.9 million was committed to conferences and other staff development activities, and a total of 79 academic papers were presented at international conferences, through which staff were (and will continue to be) able to share the results of their research with local or overseas specialists, and to receive the feedback required before making their research more generally available in a published form.

■ Collaborative Endeavour

While at present inter-institutional collaboration exists mainly at the individual level, a system has been set up by Programme-based Research Institutes/Centres to channel resources into special areas of research and to develop important links with local, regional and overseas institutions for academic exchanges, conferences and other collaborative activities. Research clusters have been set up within each Institute/Centre to encourage participation by as many faculty members as possible. The International Joint-Research Programme has been running successfully, through which distinguished scholars from outside Hong Kong are invited to team up with research fellows at various institutes/centres to work on topics of mutual interest. Living allowances are provided for these partners to make a short trip to Hong Kong to enhance collaboration. In addition, the University has set aside some money every year to finance two-way academic-exchange activities between Lingnan and institutions of higher learning on the Mainland and in the less developed economies of Asia. In 2005-06, a total of 10 incoming and 5 outgoing visits were supported by this scheme. Visiting institutions included Peking University, Shandong University, Zhejiang University, Sun Yat-sen University, Nankai University, among others.

■ Organization of Research Funding

The Research and Postgraduate Studies Committee (RPSC) is charged with the formulation of policies for the promotion, conduct, supervision and funding of research in the University. It decides on all internal funding allocations and monitors progress of research projects on various grants. Research Panels at the Programme level undertake initial assessment of applications for research grants and

make funding recommendations to the RPSC. The Office of Research and Staff Development (ORS D) provides administrative assistance to the Committee in the management of allocated grants to ensure that all funding and budgetary procedures are properly followed.

The University aims to support as many worthwhile research projects as possible where reasonable research thresholds are attained. Internal research grants are allocated on the basis of competitive bids. Each application is evaluated on the basis of its academic merit, feasibility within the indicated time frame, budgetary appropriateness, and the track record of the investigator(s).

■ Usage of Direct Allocation Grant

During the year, the RPSC allocated HK\$2.47 million to support 43 research projects undertaken by our academic staff. The titles and grants for those projects funded from the University's Block Grant and the RGC's Direct Allocation Grant are set out in Reports 2A and 2B respectively. Projects supported from private sources are listed in Report 2C.

■ Concluding Remarks

As mentioned in our annual report last year, according to the survey results published by the *Hong Kong Economic Journal Monthly* (HKEJM) in its October 2003 issue, Lingnan ranked first among the eight UGC institutions for the quality of our teaching, and fourth overall. Notwithstanding its short history, our Department of Economics, as reported in the January 2005 issue of *HKEJM*, came third in a survey of the academic performance of the economics departments of seven Hong Kong universities, evaluation of which was based on the number of articles per capita published by the universities' academic staff in quality international economics journals as well as the number of CERGs awarded by the RGC per full-time academic staff member. In the Philosophy Lists Evaluative Survey of Graduate Philosophy Departments (<http://www.philosophylists.info/GraduateDepartments.html>; the lists ranks 711 philosophy departments world-wide and leaves 243 departments unranked). The Lingnan Philosophy Department was ranked #157 world-wide (<http://www.philosophylists.info/GraduateDepartmentsbyCountry.html>) and topped

the list of Hong Kong institutions. Such ranking lists are of course having their limitations, but the economics and philosophy surveys have a set of fairly well defined criteria in rankings.

The above survey results demonstrate convincingly that the University is staffed by well-qualified academics, and enjoys a growing reputation both at home and internationally. Articles written by our staff had appeared in premier journals, and books have often been published by prestigious academic presses internationally.

Number / Letter Codes Used in Report 3

Classification of Research Output Categories

1 *Scholarly books, monographs and chapters*

- 11 *Research book or monograph (author)* – Authored work generally arising from academic research project(s) although contract research can produce such results if findings are in the public domain
- 12 *Chapter in an edited book (author)* – A paper, essay, or other material authored specifically for inclusion in an edited book; does not include an opening or summary chapter prepared by an editor for inclusion in a work counted in (14)
- 13 *Textbook (author)* – A full-length authored work used for instructional purposes; include revisions if they involve "substantial" (say 20%) new material
- 14 *Edited book (editor)* – an edited book of essays, research papers or the equivalent

2 *Journal publications*

- 21 *Publication in refereed journal* – A paper in a refereed journal devoted to reporting the results of basic or applied research
- 22 *Publication in policy or professional journal* – A paper in a refereed or unrefereed journal publishing policy or educational material for a professional audience

3 *Conference papers*

- 31 *Invited conference paper* – A paper invited for presentation at an academic or professional meeting and published (in full or in part) in conference proceedings
- 32 *Refereed conference paper* – A paper accepted for presentation at an academic or professional meeting on the basis of a formal peer review process external to the institution and published (in full or in part) in conference proceedings
- 33 *Other conference paper* – Any other paper presented at an academic or professional conference

4 *Creative and literary works, consulting reports and case studies*

- 41 *Authored play, poem, novel, story* – Fictional or similar works, published in a form appropriate to the type of work
- 42 *Painting, sculpture, drawing, photograph* – Creation of artefacts capable of being reviewed for merit, generally but not exclusively of an artistic nature [exclude those covered in (44) below]
- 43 *Film, video* – Creation of films, videos, multimedia, and similar productions for research, educational, cultural or entertainment purposes [exclude those covered in (44) below]
- 44 *Performance and participation in exhibits* – Drama, musical and similar performances; participation as an exhibitor of paintings, sculptures or other artefacts: the exhibit may be sponsored by the institution or externally; it should attract significant public or professional attention
- 45 *Translation of other's work* – Translation of an item of type (11) through (22) and (41) above, written by others: translation of one's own work is considered part of the authoring process and should not be included
- 46 *Engineering, architectural, graphic designs* – An engineering, architectural, graphic, landscape, or interior design (or the equivalent), whether prepared for a client or in the public domain
- 47 *Computer software or system* – Development of a shareable computer software program, computer language, expert system, computer-aided instruction package or the equivalent
- 48 *Consulting or contract research report* – Report on work performed under an institutional consulting or research contract: reports counted here generally will be prepared for the client, and they may be proprietary if institutional rules permit
- 49 *Written teaching case study or extensive note* – Material prepared for teaching purposes with applicability beyond one's own course needs; short notes and descriptions prepared for immediate class use should not be included

5 *Patents, agreements, assignments and companies*

- 51 *Patents granted* – patents (on work done at the reporting institution) granted by patent office(s) to the reporting institution within the specified reporting period; not patents filed, not patents held in previous years, and not patents obtained/held on work done elsewhere
- 52 *Licensing agreements* – the licensing of technology/invention **from** the reporting institution within the specified reporting period
- 53 *Assignments of intellectual property rights* – the assignment based on technology/invention **from** the reporting institution within the specified reporting period
- 54 *Companies* – registered companies in which the institution holds an equity by virtue of technology transfer, where the acquisition of such equity (including any increase in equity) by technology transfer occurred during the specified reporting period

6 *All other outputs*

- 61 *Journal editor* – Editor, associate editor, or the equivalent of a journal or similar on-going publication venture (‘editorial membership’ should be excluded)
- 62 *Review of books or of software* – Published or widely-disseminated reviews of books, other publications, software or similar items: dissemination must extend beyond the institution and its research sponsors [reviews for institutional clients should be counted under (49)]
- 63 *Postgraduate research theses* – MPhil or PhD theses of research students who defended successfully within the specified reporting period
- 64 *Other outputs* – Any substantive output of original research not listed above

Types of Research Output

- A Academic research: refereed
- B Academic research: not refereed
- C Contract research
- D Other outputs

Notes

1. Publications are listed by cost centres. For each publication, the name(s) of the author(s) belonging to the corresponding cost centre (during the reporting period) is/are underlined. In the case of students, a "#" is placed against their names.
2. The fraction appearing in the "Weighting" column of those co-authored items denotes the weighting of the authors concerned, calculated on a pro-rata basis. For example, a paper with four authors will count as 0.25 for each author, and if three of the four authors are staff members in the same cost centre, the paper will count as $3 \times 0.25 = 0.75$ in the cost-centre total.

Explanatory Notes for Report 3

Type of output:

- A Academic research: refereed
- B Academic research: not refereed
- C Contract research
- D Other outputs

Research Output Category:

1 Scholarly books, monographs and chapters

- 11 *Research book or monograph (author)* – Authored work generally arising from academic research project(s) although contract research can produce such results if findings are in the public domain
- 12 *Chapter in an edited book (author)* – A paper, essay, or other material authored specifically for inclusion in an edited book; does not include an opening or summary chapter prepared by an editor for inclusion in a work counted in (14)
- 13 *Textbook (author)* – A full-length authored work used for instructional purposes; include revisions if they involve "substantial" (say 20%) new material
- 14 *Edited book (editor)* – an edited book of essays, research papers or the equivalent

2 Journal publications

- 21 *Publication in refereed journal* – A paper in a refereed journal devoted to reporting the results of basic or applied research
- 22 *Publication in policy or professional journal* – A paper in a refereed or unrefereed journal publishing policy or educational material for a professional audience

3 Conference papers

- 31 *Invited conference paper* – A paper invited for presentation at an academic or professional meeting and published (in full or in part) in conference proceedings
- 32 *Refereed conference paper* – A paper accepted for presentation at an academic or professional meeting on the basis of a formal peer review process external to the institution and published (in full or in part) in conference proceedings
- 33 *Other conference paper* – Any other paper presented at an academic or professional conference

4 Creative and literary works, consulting reports and case studies

- 41 *Authored play, poem, novel, story* – Fictional or similar works, published in a form appropriate to the type of work
- 42 *Painting, sculpture, drawing, photograph* – Creation of artefacts capable of being reviewed for merit, generally but not exclusively of an artistic nature [exclude those covered in (44) below]
- 43 *Film, video* – Creation of films, videos, multimedia, and similar productions for research, educational, cultural or entertainment purposes [exclude those covered in (44) below]
- 44 *Performance and participation in exhibits* – Drama, musical and similar performances; participation as an exhibitor of paintings, sculptures or other artefacts: the exhibit may be sponsored by the institution or externally; it should attract significant public or professional attention
- 45 *Translation of other's work* – Translation of an item of type (11) through (22) and (41) above, written by others: translation of one's own work is considered part of the authoring process and should not be included

- 46 *Engineering, architectural, graphic designs* – An engineering, architectural, graphic, landscape, or interior design (or the equivalent), whether prepared for a client or in the public domain
- 47 *Computer software or system* – Development of a shareable computer software program, computer language, expert system, computer-aided instruction package or the equivalent
- 48 *Consulting or contract research report* – Report on work performed under an institutional consulting or research contract: reports counted here generally will be prepared for the client, and they may be proprietary if institutional rules permit
- 49 *Written teaching case study or extensive note* – Material prepared for teaching purposes with applicability beyond one's own course needs; short notes and descriptions prepared for immediate class use should not be included

5 Patents, agreements, assignments and companies

- 51 *Patents granted* – patents (on work done at the reporting institution) granted by patent office(s) to the reporting institution within the specified reporting period; not patents filed, not patents held in previous years, and not patents obtained/held on work done elsewhere
- 52 *Licensing agreements* – the licensing of technology/invention **from** the reporting institution within the specified reporting period
- 53 *Assignments of intellectual property rights* – the assignment based on technology/invention **from** the reporting institution within the specified reporting period
