It has been accepted for inclusion in Annual Report on Research Activities to Research Grants Council by an authorized administrator of Digital Commons @ Lingnan University.

## **Report One: Overview**

### **■ Institutional Policy on Research**

Unlike those liberal arts colleges which focus on teaching only, Lingnan places great emphasis on both teaching and research, which it finds inform and enrich each other to the ultimate benefit of the students. To this effect, and while pursuing a policy and practice of close staff-student relationship, the University has substantially enhanced its research strength in recent years. One indication of this is its impressive results in the Research Assessment Exercise (RAE). The results in the RAE confirmed our research strengths across all our academic areas, namely Arts, Business Studies and Social Sciences. We pride ourselves on being a ‘liberal arts teaching and research university’ which excels in teaching and research at both undergraduate and postgraduate levels. Lingnan will continue to strive for excellence in teaching and research, and will in particular concentrate research efforts in the continuing development of its nine designated ‘focused areas’. Lingnan’s intimate campus setting provides an ideal environment for intellectual discussion and research.

The University’s research policy is designed to optimize the use of research funds through focused development, quality enhancement and collaborative endeavour. Focused development is achieved through identifying priority areas of research and the recruitment of faculty to build up strength in these areas. Quality enhancement is achieved through faculty appointment and continuing improvement of existing staff profile. Collaborative endeavour is fostered through establishing research centres that provide research support and coordination.

### **■ Focused Development**

Lingnan is fully aware of the need to focus its research efforts on its areas of strength. Nine research areas have been identified for focused support. It is essential that we build on the strengths of the existing research areas, while at the same time exploring some emerging areas for development. These include seven established ones (Aesthetics & the Arts, Cultural Research & Development, Modern Literature in Chinese, Conflict Management in Chinese Societies, Taxation, Public Policy & Governance, and Social Gerontology) and two

developing areas (Hong Kong Studies Through History and Financial Markets & Economic Performance). These research areas are in line with our liberal arts mission, and are selected based on existing staff strength, proven track record and their connection to undergraduate teaching.

## ■ Quality Enhancement

Academic staff profile and research achievements of staff have improved dramatically in recent years. Based on a recent survey conducted by the *Hong Kong Economic Journal Monthly* in 2007, the PhD ratio of our staff ranks second among universities in Hong Kong.

To ensure that faculty members will be given adequate opportunities to engage in research and development activities as well as a concentrated period for writing, a study leave scheme that awards a maximum time-off period from 6-12 months has been put in place. This will allow academic staff, through re-arrangements of teaching schedule and utilization of the summer vacation, to be released from teaching and administrative duties to concentrate on research/study/writing full time. Seven academic members from six departments were released from teaching in 2008-09, each for a six-month period. The University is considering making more aggressive use of the study leave scheme and creating a more targeted and more flexible approach of supporting research; for instance, staff could apply for release from all teaching during one semester, for a ½-teaching load during a year, or for a ½-load during one semester. The basic principles guiding the evaluation of teaching remission proposals include (i) specific research targets, not for general research purposes; (ii) strong research record; (iii) heavy teaching load; and (iv) prestigious fellowships abroad (e.g. Fulbright).

In support of research work undertaken by young faculty members, an Initial Research Activities Fund for Newly Recruited Assistant Professors was introduced in 2008-09 to provide ancillary funding for research related activities without requiring the submission of a formal research proposal.

In addition to their regular participation in academic seminars organized by local tertiary institutions, staff are administratively encouraged and financially supported by the University to attend scholarly activities overseas to keep abreast of the latest

developments in their respective fields of expertise. During the year, a sum of HK\$1.25 million was committed to conferences and other staff development activities, and a total of 95 academic papers were presented at international conferences, through which staff were (and will continue to be) able to share the results of their research with local or overseas specialists, and to receive the feedback required before making their research more generally available in a published form.

## ■ Collaborative Endeavour

While at present inter-institutional collaboration exists mainly at the individual level, a system has been set up by Faculty-based Research Institutes/Centres to channel resources into special areas of research and to develop links with local, regional and overseas institutions for the purpose of academic exchange, conferences and other collaborative activities. For instance, the Asia-Pacific Institute of Ageing Studies has close links with organizations such as UN ESCAP and the Help Age International, and renowned gerontologists such as Profs Alun Joseph, Gavin Andrews and Mark Rosenberg (Canada), Alan Walker and David Challis (UK), Helen Bartlett and Anna Howe (Australia) and Dr. Kevin Kinsella (US Census Bureau), to name but a few. Together with HKIMR and Columbia University, Hong Kong APEC Study Centre organized an international conference on “The Global Financial Turmoil and the Evolving Financial Interdependence in Asia” in May 2009. During the year, a number of leading scholars of finance and economics from Columbia, Princeton, Milken Institute, Pittsburg, Tilburg, Monash, UBC, UIUC and Texas A&M visited us for an in-depth exchange on topics of mutual interest.

With the generous support of the Hong Kong Jockey Club, the Chinese Department has set up two visitorship programmes: “Distinguished Visiting Professorship” and “Writer-in-residence Programme”. During the 2008-09 academic year, Prof CHEN Shihe of Fudan University was invited as the inaugural professor. The renowned writer Mr Chang Ta-chun visited Lingnan as writer-in-residence to give lectures to students and to conduct writing workshops and tutorials.

In addition, the University has set aside some funds every year to finance two-way academic-exchange activities between Lingnan and institutions of higher learning in the PRC and the less developed economies of Asia. In 2008-09, a total of 3 incoming and 3 outgoing visits were supported under this scheme. Visiting institutions included the Chinese Academy of Social Sciences, Tsinghua University, Peking University, among others.

## ■ **Organization of Research Funding**

The formulation of policies for the promotion, conduct, supervision and funding of research at the University is entrusted to the Research and Postgraduate Studies Committee (RPSC), a Senate committee that decides internal funding allocations and monitors progress of research projects funded by various grants. Initial assessment of research grant applications is undertaken by three faculty-level research panels, which make funding recommendations to the RPSC. Smaller grants are decided by the faculty research panels. The Office of Research and Staff Development provides administrative assistance to the Committee and the panels in the management of allocated grants, ensuring that all funding and budgetary procedures are properly followed.

A rigorous internal peer review process is adopted for all internal research grant applications. Each application is evaluated on the basis of academic merit, feasibility within the indicated time frame, budgetary appropriateness, and the track record of the investigator(s).

## ■ **Usage of Direct Allocation Grant**

The Direct Allocation (DA) is an excellent scheme for small-scale research projects and for many such projects undertaken at a humanities/social science and business university such as ours. Indeed, our institutional support for research relies heavily on RGC's DA. We make allocations with due care. PIs have to be highly competitive to win an award. Our efficient use of the DA is clearly evident in the number of quality outputs our colleagues manage to produce. This is confirmed in the 2006 RAE results.

The RPSC allocated a total of HK\$2.5 million to support 43 research projects during the 2008-09 academic year. The titles and grants for those projects funded from the University's Block Grant and the RGC's Direct Allocation Grant are set out in Reports 2A and 2B respectively. Projects supported from private sources are listed in Report 2C.

## ■ Research Highlights

As a teaching and learning liberal arts institution, we are committed to the synergistic pursuit of academic excellence and the advancement of knowledge. Building on our research strength and capitalising on our staff expertise, we aim at continuing to produce research of high international calibre in various disciplinary and interdisciplinary academic areas.

The theoretical and practical value of research conducted at Lingnan is well exemplified by our first RGC-funded public policy research project awarded in June 2006, entitled "Fair Competition under Laissez-Faireism: Policy Options for Hong Kong". Through a systematic review of current competition policy framework in Hong Kong, the project will assess if there is a need for Hong Kong to establish a general competition law. In December 2007, we obtained our second PPR grant for a project entitled "Hong Kong as an International Financial Centre for China and for the World", which will examine in depth the locational structure of financial activity in Hong Kong and major competitors, with several major centres in the region vying for position in an industry probably due for further consolidation. We obtained our third PPR grant awarded in June 2009, entitled "Audience Development as Cultural Policy in Hong Kong since 1997". Guided by an inter-disciplinary cultural policy research framework, the project will present a full account of the major Audience Development (AD) work in Hong Kong since 1997, plus a critical analysis of the key issues and problems identified. Alongside a set of policy recommendations, the project will also provide practice guidelines and methodologies on AD in the form of a handbook for the parties concerned.

We are happy to note that a research proposal jointly submitted by Lingnan University and University of Birmingham was selected for funding under the Economic and Social Research Council (ESRC)/Research Grants Council (RGC)

Joint Research Scheme. The proposal, entitled “Innovative Management Practices and Firm Performance: A Quasi-natural Experiment within a Private Manufacturing Firm in China”, was supported with a budget of about HK\$1.33 million (HK\$344,000 plus GBP78,466). This Joint Research Scheme is highly competitive; only 4 out of 38 applications were funded in the latest allocation.

We are also happy to note that the Croucher Foundation accepted our Computing & Decision Sciences Department’s nomination of Dr Huang Jian of the Jiangxi University of Finance and Economics to visit Lingnan for six months, and a grant of HK\$144,000 was made towards this Visitorship. In collaboration with a colleague in the CDS Department, Dr Huang will work on a project entitled “Effectiveness of Price Promotions: Trade Promotions vs Mail-in Rebate”.

According to the 2009 survey conducted by Brigham Young University, our Accountancy Department ranks 23<sup>rd</sup> in taxation research among universities worldwide and is the leader in tax research in Hong Kong. Notwithstanding its short history, our Department of Economics, as reported in the January 2005 issue of HKEJM, came third in a survey of the academic performance of the economics departments of seven Hong Kong universities, evaluation of which was based on the number of articles per capita published by the universities’ academic staff in quality international economics journals as well as the number of GRFs awarded by the RGC per full-time academic staff member. Also, Lingnan was ranked fifth internationally in the publication of business and management empirical research on China in leading international journals according to “Business and Management in China: A Review of Empirical Research in Leading International Journals” published in the *Asia Pacific Journal of Management* (2007, 24: 359-368).

The above survey results demonstrate convincingly that the University is staffed by well-qualified academics, and enjoys a growing reputation both at home and internationally. Articles written by our staff had appeared in premier journals, and books have often been published by prestigious academic presses internationally.

## ■ Concluding Remarks

Lingnan has established itself as a unique liberal arts institution with Hong Kong characteristics which excels in both education and research. In embracing the vast opportunities and challenges that lie ahead, the University will build on this niche by reinforcing the distinctive strengths of our liberal arts ethos and continuing our pursuit of the highest standards of scholarship.

Our strategic objectives include:

### Research

- To continue to foster excellence in research
- To build on the University's strong recent research performance by enhancing efforts on identified areas of strength and by identifying new areas of strength

### Faculty Development

- To continue to foster excellence in teaching
- To encourage academic staff to engage in continuous development, international exchange arrangements, and interaction with international organisations or institutions
- To invite distinguished visiting scholars to the University for teaching and/or research collaboration

### Research Postgraduate Programmes

- To continue to develop research postgraduate programmes which reflect, and will further enhance, the academic strengths of the University
- To further guide, facilitate and foster the scholarly and academic development of research postgraduate students
- To embark on further expansion of the research postgraduate student population in a manner commensurate with our staff expertise

## **Explanatory Notes for Report 3**

### **Type of Output:**

- A Academic research: refereed
- B Academic research: not refereed
- C Contract research
- D Other outputs

### **Research Output Category:**

#### **1 Scholarly books, monographs and chapters**

- 11 *Research book or monograph (author)* – Authored work generally arising from academic research project(s) although contract research can produce such results if findings are in the public domain
- 12 *Chapter in an edited book (author)* – A paper, essay, or other material authored specifically for inclusion in an edited book; does not include an opening or summary chapter prepared by an editor for inclusion in a work counted in (14)
- 13 *Textbook (author)* – A full-length authored work used for instructional purposes; include revisions if they involve "substantial" (say 20%) new material
- 14 *Edited book (editor)* – an edited book of essays, research papers or the equivalent

#### **2 Journal publications**

- 21 *Publication in refereed journal* – A paper in a refereed journal devoted to reporting the results of basic or applied research
- 22 *Publication in policy or professional journal* – A paper in a refereed or unrefereed journal publishing policy or educational material for a professional audience

#### **3 Conference papers**

- 31 *Invited conference paper* – A paper invited for presentation at an academic or professional meeting and published (in full or in part) in conference proceedings
- 32 *Refereed conference paper* – A paper accepted for presentation at an academic or professional meeting on the basis of a formal peer review process external to the institution and published (in full or in part) in conference proceedings
- 33 *Other conference paper* – Any other paper presented at an academic or professional conference

#### **4 Creative and literary works, consulting reports and case studies**

- 41 *Authored play, poem, novel, story* – Fictional or similar works, published in a form appropriate to the type of work
- 42 *Painting, sculpture, drawing, photograph* – Creation of artefacts capable of being reviewed for merit, generally but not exclusively of an artistic nature [exclude those covered in (44) below]
- 43 *Film, video* – Creation of films, videos, multimedia, and similar productions for research, educational, cultural or entertainment purposes [exclude those covered in (44) below]
- 44 *Performance and participation in exhibits* – Drama, musical and similar performances; participation as an exhibitor of paintings, sculptures or other artefacts: the exhibit may be sponsored by the institution or externally; it should attract significant public or professional attention
- 45 *Translation of other's work* – Translation of an item of type (11) through (22) and (41) above, written by others: translation of one's own work is considered part of the authoring process and should not be included

- 46 *Engineering, architectural, graphic designs* – An engineering, architectural, graphic, landscape, or interior design (or the equivalent), whether prepared for a client or in the public domain
- 47 *Computer software or system* – Development of a shareable computer software program, computer language, expert system, computer-aided instruction package or the equivalent
- 48 *Consulting or contract research report* – Report on work performed under an institutional consulting or research contract: reports counted here generally will be prepared for the client, and they may be proprietary if institutional rules permit
- 49 *Written teaching case study or extensive note* – Material prepared for teaching purposes with applicability beyond one's own course needs; short notes and descriptions prepared for immediate class use should not be included

## **5 Patents, agreements, assignments and companies**

- 51 *Patents granted* – patents (on work done at the reporting institution) granted by patent office(s) to the reporting institution within the specified reporting period; not patents filed, not patents held in previous years, and not patents obtained/held on work done elsewhere
- 52 *Licensing agreements* – the licensing of technology/invention **from** the reporting institution within the specified reporting period
- 53 *Assignments of intellectual property rights* – the assignment based on technology/invention **from** the reporting institution within the specified reporting period
- 54 *Companies* – registered companies in which the institution holds an equity by virtue of technology transfer, where the acquisition of such equity (including any increase in equity) by technology transfer occurred during the specified reporting period

## **6 All other outputs**

- 61 *Journal editor* – Editor, associate editor, or the equivalent of a journal or similar on-going publication venture ('editorial membership' should be excluded)
- 62 *Review of books or of software* – Published or widely-disseminated reviews of books, other publications, software or similar items: dissemination must extend beyond the institution and its research sponsors [reviews for institutional clients should be counted under (49)]
- 63 *Postgraduate research theses* – MPhil or PhD theses of research students who defended successfully within the specified reporting period
- 64 *Other outputs* – Any substantive output of original research not listed above

## **Notes**

1. Publications are listed by cost centres. For each publication, the name(s) of the author(s) belonging to the corresponding cost centre (during the reporting period) is/are underlined. In the case of students, a "#" is placed against their names.
2. The fraction appearing in the "Weighting" column of those co-authored items denotes the weighting of the authors concerned, calculated on a pro-rata basis. For example, a paper with four authors will count as 0.25 for each author, and if three of the four authors are staff members in the same cost centre, the paper will count as  $3 \times 0.25 = 0.75$  in the cost-centre total.
