### **Report 1**

Overview

### **Report 2**

List of Ongoing Research Projects in 2012-2013 Funded by Sources other than UGC / RGC Competitive Grants and Public Policy Research Funding Scheme

(A) Ongoing Research Projects Funded by UGC's Block Grant

(B) Ongoing Research Projects Funded by RGC's Direct Allocation

(C) Ongoing Research Projects Funded by Non-UGC/RGC Sources

### **Report 3**

List of Research Output by Academic Staff in 2012-2013 (in PDF format)

### **Explanatory Notes for Report 3**

## Report 1: Overview

### ■ Institutional Policy on Research

Lingnan University is a distinct liberal arts university in Hong Kong with a strong research focus that complements its primary undergraduate teaching mission. We are committed to both quality teaching and excellence in research and find the complementarity of these two aspects of our mission to be beneficial to the University's development. In the reporting period, the University has around 130 GRF/ECS eligible staff (13 Chair Professors, 23 Professors, 55 Associate Professors and 40 Assistant Professors). We have 72 research postgraduate students (25 PhD and 47 MPhil) and 50% of them are non-local (UGC average is 73%).

At the university level, there are nine research centers/institutes and programs with seven focused research areas identified as per the Strategic Plan 2009-2016. The Office of Research Support (ORS) provides proactive services to academic staff and the Research Committee (RC) has come up with new incentive measures implemented from this reporting period to encourage staff to apply for external grants of the RGC.

#### *Developments in the Reporting Period*

In response to the change in research funding policy of the RGC, the RC has adopted some measures to support and encourage grant-funded research. These measures include: (a) granting teaching remission of 1 course per year for the duration of project to principal investigators (PIs) who won GRF/ECS and other competitive earmarked research grants of the RGC; (b) reserving the internal Direct Grant (DG) for application by PIs who had unsuccessful GRF/ECS grant applications scoring 3.0 or 3.5; and (c) increasing the share to department of project indirect/on-costs allocated to University by RGC. The teaching remission incentive scheme was implemented starting from this reporting period while the other two measures will be launched from 2013/14.

Opportunity was also provided during the updating of the Strategic Plan 2009-2016 for a revisit of the strategy for the research area. Three directions: internationalizing research, heightening success rate of external grant applications and showcasing research excellence are stated in the Action Plan Updates to the Strategic Plan published in May 2013.

#### *Relationship between research policy and other institutional policies*

*Research postgraduate training.* In the education of research postgraduates, the University places high priority in providing quality support to students and gives funding annually to support research students to attend conferences. During the reporting period, the University has allocated funding which supported participation of research postgraduates in 27 conferences and resulting in 22 paper and 2 poster

presentations. Integration of research postgraduates into the academic activities of the department is evidenced by their participation as presenters in departmental seminars, membership of research project teams and co-authorship in publications with staff (refer to Report 3).

*Staff development.* Staff development policy has a direct impact on staffs' research productivity. With this in mind, the University has pursued several measures to facilitate young faculty to perform research, to give space for staff to engage in uninterrupted periods of research and writing, and to recognize those who had excelled in their research endeavors. An Initial Research Activities Fund for Newly Recruited Assistant Professors provides ancillary funding for research-related activities without requiring the submission of a formal research proposal. In the reporting period, 5 newly appointed Assistant Professors were eligible to receive funding. A study/academic leave scheme of 6-12 months enables academic staff to be released from teaching and administrative duties to concentrate on research, study and writing full time. Eight such awards of half-term each were made in the reporting period for leaves to be taken between July 2013 and June 2014. The Academic Staff Review Committee (ASRC) which assesses staff performance has also instituted an annual evaluation of staff's excellence in research publication where top performers may be given one course of teaching remission as a reward.

## ■ Research Funding

### *Organization of research funding*

The RC under the Senate is responsible for both policy formulation and oversight of research activities in the University. It recommends to the University the annual allocation for research budget and related funding schemes, decides on all internal funding allocations and monitors progress of research projects funded by various grants. To carry out its various functions, RC sets up three subcommittees for reviewing applications for conference grants, University Conference Fund, and ethical clearance for projects involving use of human subjects.

Research and Postgraduate Studies Panels (RPSP) are constituted in each of the three faculties to undertake initial assessment of applications for internal research grants and make funding recommendations to the RC. As the University disburses two types of internal research grants – Direct Grant (DG) of up to \$120,000 and Faculty Research Grant (FRG) of up to \$30,000, distribution of FRG is decided by the RPSP while for DG, scoring of applications is undertaken by RPSP but funding decisions are made by the RC. RPSP members also play a role in commenting on GRF/ECS proposals before they are endorsed for submission to RGC.

ORS provides full administrative support to RC and the RPSPs in the whole internal grant application review cycle as well as managing the grant award accounts to ensure

that funding guidelines and budgetary procedures are properly followed by principal investigators.

#### *Funding criteria*

Internal grant applications are assessed by a rigorous process of peer review which takes into account the need to be supportive and constructive but at the same time ensuring only sound project ideas with well-thought out plans can receive funding support. The criteria used in assessing applications are: academic merit, feasibility of completion within the proposed time-frame, budgetary appropriateness, and the track record of the investigator(s). The competitive nature attached to the process serves to acquaint new faculty with the rigor of peer review for grant proposals as they eventually have to submit proposals for peer-reviewed external grants.

#### *Usage and allocation of research funds*

In 2012/13, the RC has approved a total of HK\$2,375,832 to support 24 DG projects. Faculty RPSPs approved a total of \$405,286 to fund 16 smaller FRG projects across the 3 faculties. Another \$1,473,838 was approved to support staff attendance in 126 overseas and 5 local conferences. In addition, two conferences to be hosted by Centre for Asian Pacific Studies and Department of Philosophy in Lingnan in 2013 were allocated a total of \$230,000 from the University Conference Fund. The careful consideration given to these applications by the RC ensures that money is well spent on activities that can generate further productive gains, such as internal research grants acting as precursor for GRF applications and conference papers that directly contribute to the volume of research outputs. A listing of all the internal research grants with funding coming from Block Grant and Direct Allocation (for ongoing internal research grant projects carried over from 2011/12 and before) are given in Reports 2(A) and 2(B) respectively.

In summary, the proportion of funds committed to various research activities at Lingnan is: (a) internal research grants (52%); (b) conference grants (25%); (c) University conference fund (6%); staff academic exchange (3%); and others (14%).

### ■ Research Collaborations

Collaborative links pursued by staff have grown considerably. Based on analysis of co-authorship in publications indexed by AHCI/SSCI databases during the reporting period, a total 8 countries/regions (Australia, Canada, Taiwan, Scotland, Singapore, Sweden, UAE, USA) in addition to China are represented in joint publications. The number of co-authored publications made up 1/3 of the total and included researchers from 32 major overseas and Chinese universities (Chongqing, Guangdong Foreign Studies U, Shanghai U of Economics and Finance, Deakin, Monash, South Australia, Sydney, McMaster, National Taipei, Bath, Cambridge, Edinburgh Napier, Warwick,

National University Singapore, Lund, Zayed, Cincinnati, CUNY Baruch College, Georgia State, Johns Hopkins, Harvard, Illinois Urbana Champaign, Kentucky, Massachusetts Amherst, Michigan State, Nevada at Las Vegas, Saint Louis, South Carolina, Rice, Tufts, Texas Southwestern at Dallas and Western Kentucky).

Other forms of collaborative endeavours include joint conferences and community outreach projects. The Department of Economics played host to the 7th Biennial Conference of the Hong Kong Economics Association that was held at Lingnan campus on 13-14 December, 2012. The conference was attended by renowned economists around the world with Nobel Laureate Prof. Sir James Mirrlees delivering the keynote address. The HK Institute of Business Studies continues to organise the annual Academy of International Business Southeast Asia Regional Conference which was took place on 6-8 December, 2012 in Xiamen, China. A notable example of community outreach project is the “Citizens responsibility education through service learning: A village adoption project in Yunnan China Phase 2” funded by Deloitte Touche Tohmatsu.

## ■ Research Highlights

### *Grants*

In the 2012/2013 cycle, 10 GRF, 3 ECS and 1 HSSPFS were awarded to our staff totaling \$5,359,888. The application success rates attained at 38.5% (GRF) and 45.5% (ECS) place us in 2<sup>nd</sup> and 1<sup>st</sup> rank order as compared to other UGC institutions. Staff had put in a total of 39 GRF/ECS applications which represents a marked increase from the 23 proposals submitted in the previous year.

For new non-UGC/RGC funded projects, this has continued to increase in diversity and outreach. Worthy of mention are the contracts won by our HK and South China Historical Research Program for writing histories of the old General Post Office, social and cultural heritage of the HK International Airport, and Kwong Wah Hospital and SARS crisis. Our staff in the Department of Chinese continues to be regular recipients of Arts Development Council publication grants. The longstanding HK Happiness Index run by the Centre for Public Policy Studies received financial support from the Shih Wing Ching Foundation.

A full listing of the funding obtained from non-UGC/RGC sources is detailed in Report 2(C).

### *Publications*

A majority of our staff members across all 15 academic departments have published their research in top-tier or major refereed journals in their disciplines or in monograph series/book titles with renowned publishers. In the reporting period, a total of 99

outputs of Lingnan staff were indexed in the AHCI/SSCI databases of Web of Science. There is also a fair spread of participation by staff as editors, editorial board members, and ad hoc reviewers of academic journals. Some of our departments also maintain their own active publication channels for works of student and staff. Notable examples include the “Cultural Studies@Lingnan” (e-journal of the Master of Cultural Studies programme) and the “Journal of Modern Literature in Chinese” hosted by the Centre for Humanities Research. The Department of Philosophy serves as one of the editorial hubs for the “Australasian Journal of Philosophy”, an A\* journal in the 2010 Australian ERA journal ranking list.

The publications/outputs arising from our staff and research postgraduate students’ research activities are listed in Report 3.

### *Conferences*

The following conferences were held in Lingnan during the reporting period. Sources of funding include the Lingnan University Conference Fund, GRF, Arts Development Council, and other sources:

1. The conference on “History of the Song Dynasty (960-1127)” organised by the Department of History was held on 8-9 December, 2012. It was attended by more than 70 historians from mainland China, Hong Kong and Taiwan.
2. The Centre for Asian Pacific Studies hosted a conference on "The Korean Peninsula: Assessing Prospects for Change" on 11 January, 2013. About 50 political scientists from South Korea, mainland China and the US, as well as Hong Kong-based diplomats from Japan, Russia, the European Union and Britain, participated in the conference, which was co-sponsored by the Consulate General of the Republic of Korea in Hong Kong.
3. The “HK Metaethics Conference” hosted by the Dept. of Philosophy was held on 4-5, May 2013.
4. The Centre for Humanities Research organised an international conference on “Hong Kong Literature and Culture of the 1950s” which was held on 21-23 May, 2013. As the round-up conference of the Research Grants Council General Research Fund (RGC-GRF) project “Hong Kong Literature and Culture of the 1950s”, the conference was also funded by the Hong Kong Arts Development Council.
5. The 4th Asia-Pacific Regional Conference on Service-Learning was held on 5-6 June, 2013 in Lingnan followed by a two-day exchange session at Sun Yat-sen University in Guangzhou. The conference theme is “Service-Learning as a

Bridge from Local to Global: Connected World, Connected Future”. It managed to gather about 450 guests including educators, students and service providers from 19 countries and regions around the world to exchange ideas and work together for a connected future.

Other symposia, seminars, workshops, public lectures organized by Lingnan departments and academic units can be viewed from their individual departmental website listings.

## ■ Conclusions

In the 2011/12 Report, we mentioned that for the upcoming year, our imminent priority will be focused on preparing for the RAE 2014 exercise. In fortuitous coincidence to the research assessment exercise, Lingnan University was also visited by the RGC in June 2013. These twin events provide opportunity to take stock of our research performance from the period of the last RAE 2006 exercise until 2012. We conclude that focusing on research outputs and improving visibility of what our researchers have accomplished are equally important.

On the quality and volume of research, it was found that our staff published during 2006-2012 a total of 509 papers indexed in SCOPUS and 59 papers in Chinese that are included in Mainland China’s CNKI core journals and Taiwan HCI/SSCI indexed journals. Based on analysis of AHCI/SSCI databases for the same period, our average cites per output (3.25) is broadly comparable to 2 UGC institutions and better than 1 other institution. The volume of output per staff (3.92) is better than all 6 top North-American liberal arts universities listed in the 2012 US News and World Reports and the 2013 MacLean Rankings. The average citation per output of Lingnan is better than 4 out of these 6 top US and Canadian liberal arts universities. Hence, from the standpoint of measuring our research output, it would make useful benchmarking to compare against overseas peers with the same mission in addition to local UGC funded institutions.

## **Explanatory Notes for Report 3**

### **Type of output:**

- A Academic research: refereed
- B Academic research: not refereed
- C Contract research
- D Other outputs

### **Research Output Category:**

#### **1 Scholarly books, monographs and chapters**

- 11 *Research book or monograph (author)* – Authored work generally arising from academic research project(s) although contract research can produce such results if findings are in the public domain
- 12 *Chapter in an edited book (author)* – A paper, essay, or other material authored specifically for inclusion in an edited book; does not include an opening or summary chapter prepared by an editor for inclusion in a work counted in (14)
- 13 *Textbook (author)* – A full-length authored work used for instructional purposes; include revisions if they involve "substantial" (say 20%) new material
- 14 *Edited book (editor)* – an edited book of essays, research papers or the equivalent

#### **2 Journal publications**

- 21 *Publication in refereed journal* – A paper in a refereed journal devoted to reporting the results of basic or applied research
- 22 *Publication in policy or professional journal* – A paper in a refereed or unrefereed journal publishing policy or educational material for a professional audience

#### **3 Conference papers**

- 31 *Invited conference paper* – A paper invited for presentation at an academic or professional meeting and published (in full or in part) in conference proceedings
- 32 *Refereed conference paper* – A paper accepted for presentation at an academic or professional meeting on the basis of a formal peer review process external to the institution and published (in full or in part) in conference proceedings
- 33 *Other conference paper* – Any other paper presented at an academic or professional conference

#### **4 Creative and literary works, consulting reports and case studies**

- 41 *Authored play, poem, novel, story* – Fictional or similar works, published in a form appropriate to the type of work
- 42 *Painting, sculpture, drawing, photograph* – Creation of artefacts capable of being reviewed for merit, generally but not exclusively of an artistic nature [exclude those covered in (44) below]
- 43 *Film, video* – Creation of films, videos, multimedia, and similar productions for research, educational, cultural or entertainment purposes [exclude those covered in (44) below]
- 44 *Performance and participation in exhibits* – Drama, musical and similar performances; participation as an exhibitor of paintings, sculptures or other artefacts: the exhibit may be sponsored by the institution or externally; it should attract significant public or professional attention
- 45 *Translation of other's work* – Translation of an item of type (11) through (22) and (41) above, written by others: translation of one's own work is considered part of the authoring process and should not be included
- 46 *Engineering, architectural, graphic designs* – An engineering, architectural, graphic, landscape, or interior design (or the equivalent), whether prepared for a client or in the public domain
- 47 *Computer software or system* – Development of a shareable computer software program, computer language, expert system, computer-aided instruction package or the equivalent
- 48 *Consulting or contract research report* – Report on work performed under an institutional consulting or research contract: reports counted here generally will be prepared for the client, and they may be proprietary if institutional rules permit
- 49 *Written teaching case study or extensive note* – Material prepared for teaching purposes with applicability beyond one's own course needs; short notes and descriptions prepared for immediate class use should not be included

#### **5 Patents, agreements, assignments and companies**

- 51 *Patents granted* – patents (on work done at the reporting institution) granted by patent office(s) to the reporting institution within the specified reporting period; not patents filed, not patents held in previous years, and not patents obtained/held on work done elsewhere
- 52 *Licensing agreements* – the licensing of technology/invention from the reporting institution within the specified reporting period
- 53 *Assignments of intellectual property rights* – the assignment based on technology/invention from the reporting institution within the specified reporting period
- 54 *Companies* – registered companies in which the institution holds an equity by virtue of technology transfer, where the acquisition of such

equity (including any increase in equity) by technology transfer occurred during the specified reporting period

**6 All other outputs**

- 61 *Journal editor* – Editor, associate editor, or the equivalent of a journal or similar on-going publication venture (‘editorial membership’ should be excluded)
- 62 *Review of books or of software* – Published or widely-disseminated reviews of books, other publications, software or similar items: dissemination must extend beyond the institution and its research sponsors [reviews for institutional clients should be counted under (49)]
- 63 *Postgraduate research theses* – MPhil or PhD theses of research students who defended successfully within the specified reporting period
- 64 *Other outputs* – Any substantive output of original research not listed above
